### **Clinical Pharmacology** , 11<sup>th</sup> Edition

**By** Bennett, Brown & Sharma

**Product Type:** Softcover

**Price:** €9.99

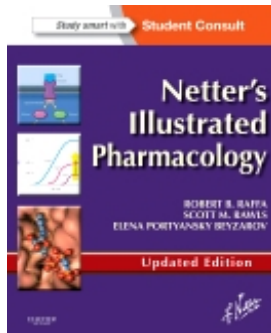

**Subject Area:** Medicine - Pharmacology

A thorough knowledge of pharmacological and therapeutic principles is vital if drugs are to be used safely and effectively for increasingly informed patients. Those who clearly understand how drugs get into the body, how they produce their effects, what happens to them in the body, and how evidence of their therapeutic effect is assessed, will choose drugs more skilfully, and use them more safely and successfully than those who do not. Now in a fully revised 11<sup>th</sup> edition, *Clinical Pharmacology* is essential reading for undergraduate medical students, junior doctors and anyone concerned with evidence-based drug therapy.

### **Crash Course: Pharmacology Updated Print + eBook edition** , 4<sup>th</sup> Edition

By *Battista*

**Product Type:** Softcover

**Price:** €33.99

**Subject Area:** Medicine - Pharmacology

The (printed) 'Updated Edition' now comes with added value access to the complete, downloadable eBook version via Student Consult. Search, read and revise whilst on the move and use the interactive self-assessment to test your understanding. *Crash Course* - a more flexible, practical learning package than ever before.

This book takes the reader through the fundamental principles of pharmacology in a comprehensive yet concise format. The molecular basis of pharmacology, drugs and receptors, pharmacokinetics and drug interactions are all considered, along with the inclusion of the latest drug guidelines and recommendations. Each chapter is prefaced with a set of learning objectives and the book also features an extensive self-assessment section of MCQs, short-answer and essay questions for the reader to determine gaps in knowledge and prepare for exams.
